83% of all our Graduates are still drug and alcohol free.

We exist to help men with life controlling issues, such as drug and alcohol addictions as well as other issues by providing a healthy, balanced, structured environment for the whole man, addressing the spiritual, physical, emotional, financial and legal necessities. Our goal is to provide a place of recovery, transformation, healing and wholeness by focusing hope in Jesus Christ; instilling tools to break destructive patterns and habits, begin making right choices, setting goals, restoring broken relationships and living a disciplined abundant life. Only if an individual sees his need for change, desires to do what it takes to accomplish this, and makes a 1 year commitment will he be admitted into the Isaiah house.

(Isaiah 58:6-12)
